

## Coat Color and Trait Certificate

**Call Name:** Wrath  
**Registered Name:** Wrath Denbrix  
**Breed:** German Shepherd Dog  
**Sex:** Male  
**DOB:** Feb. 2014

**Laboratory #:** 23932  
**Registration #:** CMKU/DS/93405/14  
**Tattoo:** 16644  
**Certificate Date:** April 4, 2016

### This canine's DNA showed the following genotype(s):

Coat Color/Trait Test	Gene	Genotype	Interpretation
L locus (Long hair)	<i>FGF5</i>	Sh/Lh	Shorthaired (carries longhaired)

### Interpretation:

This dog carries one copy of **Sh** and one copy of **Lh** which results in short hair. However, the overall coat type of this dog is dependent on the combination of this dog's genotypes at the L, Cu, and IC loci. This dog will pass **Sh** on to 50% of its offspring and **Lh** to 50% of its offspring.

Paw Print Genetics™ has genetic counseling available to you at no additional charge to answer any questions about these test results, their implications and potential outcomes in breeding this dog.

Normal results do not exclude inherited mutations not tested in these or other genes that may cause medical problems or may be passed on to offspring. These tests were developed and their performance determined by Paw Print Genetics™. This laboratory has established and verified the tests' accuracy and precision. Because all tests performed are DNA-based, rare genomic variations may interfere with the performance of some tests producing false results. If you think these results are in error, please contact the laboratory immediately for further evaluation. In the event of a valid dispute of results claim, Paw Print Genetics will do its best to resolve such a claim to the customer's satisfaction. If no resolution is possible after investigation by Paw Print Genetics with the cooperation of the customer, the extent of the customer's sole remedy is a refund of the fee paid. In no event shall Paw Print Genetics be liable for indirect, consequential or incidental damages of any kind. Any claim must be asserted within 60 days of the report of the test results.
